CATALOGUE 2026

About Us

Engravart was established in 2015. Originally the business retailed its products from a permanent stall at the Fremantle Markets. The business grew organically as the products were “discovered” by visitors to the Markets and at the various annual AGHA Gift Fairs and Exhibitions in Melbourne and Sydney, where Engravart exhibited.

Engravart now has retail stockists all over Australia and the business has changed from being a market retailer to being a manufacturer and wholesaler.

Engravart is the trading entity of a company called GET3 Pty Ltd, ABN: 17 600 505 422.

Australian Made / Customised Products.

In recent times laser engraved products have become more widely available as smaller laser engraving equipment has become readily available. The demands from retail outlets for quality Australian made customised engraved gifts, particularly in the souvenir and giftware sectors, can now be properly served. The production of relatively small numbers of unique and customised engraved products was previously not economically viable for large, industrial laser businesses to consider. That situation has changed for the better and the souvenir/ giftware sector is now better served by smaller engraving businesses, such as Engravart.

At Engravart we focus on producing products that are customised for our stockists and customers.

Customising of product to reflect local names and images hugely enhances the “uniqueness” appeal of the product leading to improved sales.

Our Cheeseboards, Coasters, Bookmarks, Keyrings and so on can be customised to suit you. There are two areas where customisation is done.

First, the place name or legend can be changed to suit your location.

This usually is a State name or the name of a region or town, but could also be a Business name or a landmark name. Businesses have taken advantage of our products to provide corporate gifts to their clients with their logo or business name engraved.

Second, the image itself will be chosen by you to suit your location and market. Images that show animals that are native to a particular place become a very strong selling point for a gift or souvenir. Please see our Image Gallery for a large range of images to choose from. We have not included any logo's in our image gallery as these are copyrighted to their owners.

CATALOGUE 2026

Australian Made Please be aware:

Most of our products are certified Products of Australia, meaning they are made here using Australian raw materials and labour.

Look for this mark/logo:

Those of our products that are Product of Australia certified are made using Australian veneers and timbers from sustainable, well managed forests.

Australian Timbers have in recent years become incredibly expensive. So much so that it is very difficult to source raw timber material locally at a cost that is viable.

Consequently, we are forced to import Acacia timber boards, from wherever we can find the required quality at a price that makes commercial sense. At different times, we have turned to China, India, Vietnam and Poland (Beech wood) to source product. We import the boards and treat them here and of course we engrave them here to customise them. Unfortunately, the imported boards do not qualify for the 'Product of Australia' certification as the timber is not grown here, in Australia.

Cheeseboards & Cutting Boards

Made from Acacia wood (imported hardwood)

Cheeseboards: 290mm x 150mm board - 15mm thick.

Cutting Boards: 390mm x 260mm board - 15mm thick.

Our cheeseboards and cutting boards are extremely popular because a customised board is such a unique, novel and functional souvenir or keepsake.

A delightful way to serve cheese, fruit, snacks and entrees, these boards instantly become a conversation piece making them great for dinners, dinner or garden parties, barbeques and wine tastings.

The boards are customised with personal names & messages, regional names, company names & logos, restaurant names etc.

Most often the boards are customised with town, region or State/Province names, but any name or legend can be engraved for you.

CATALOGUE 2026

Coasters

There are 6 coasters in a box or set of coasters.

These can be engraved with any of the images you see in the Image Gallery. Coasters are also customised with your chosen legend below the image on the coaster.

As shown in this image, you can have any mix of animals that you want in your set of 6 coasters. However, the text is the same on each coaster in the set.

The entire contents of this catalogue including design, text and images is subject to copyright. You may store this catalogue on any medium. You may share this catalogue freely but may not charge a fee for it. You may print all or any part of the catalogue. You may not claim any aspect or content of this catalogue as your own. Copyright 2026/2027

CATALOGUE 2026

A single coaster with a wooden easel is a popular choice. It's an inexpensive slice of Australia for a visitor to take home.

Comes packaged in a coaster box.

CATALOGUE 2026

Coaster sets are kept tidy in their own custom made holder called a 'coaster tidy'.

The coaster tidy holds 6 Coasters. Comes packaged in the standard coaster box.

CATALOGUE 2026

Bookmarks. You can order any image from the range.

They are packed in cellophane packets for pegboard style hanging display.

CATALOGUE 2026

Keyrings. You can order any image from the Image Gallery.

Keyrings are packed in cellophane packets for "hang-sell", as shown in the images below:

Order either beechwood (image on left) or blackwood (image on right)
Note: 2 different styles of keyring

CATALOGUE 2026

Fridge Magnets As with all our engraved , you can order any image from the image gallery.

They are packed in cellophane packets for pegboard style hanging display.

CATALOGUE 2026

Museums and Memorials

Order any product in our range for your Gift Shop. We will engrave your choice of product with an image which may be your logo or any image from our Image Gallery, and a text legend of your choice.

CATALOGUE 2026

Two-Up Kips

As with all our products, we will customise image and text for you which may reflect your logo, town, regiment, RSL branch or any of our images.

Kips are made from hard wood and the pennies are genuine Australian copper pennies, some nearly 80 years old.

CATALOGUE 2026

Pen Boxes

These interesting utility boxes have a thousand and one uses. They are made using a technique called a "living hinge" which is a way of cutting the wood so that it can be bent at right angles.

In this way the box can be made in one piece with only the base of the box being separate.

The box comes 'flat-packed' in its own box:

and is easily assembled as follows:

CATALOGUE 2026

Pen Boxes can be engraved with any of the images in our image gallery.

CATALOGUE 2026

Trivets

Trivets are available in 2 sizes:
165mm diameter (small) and 255mm diameter (large).

They can be engraved with any of our images. Although used as a trivet they are often purchased as a decorative memento or gift.

Trivets are packaged in their own branded boxes.

Map trivets. Order

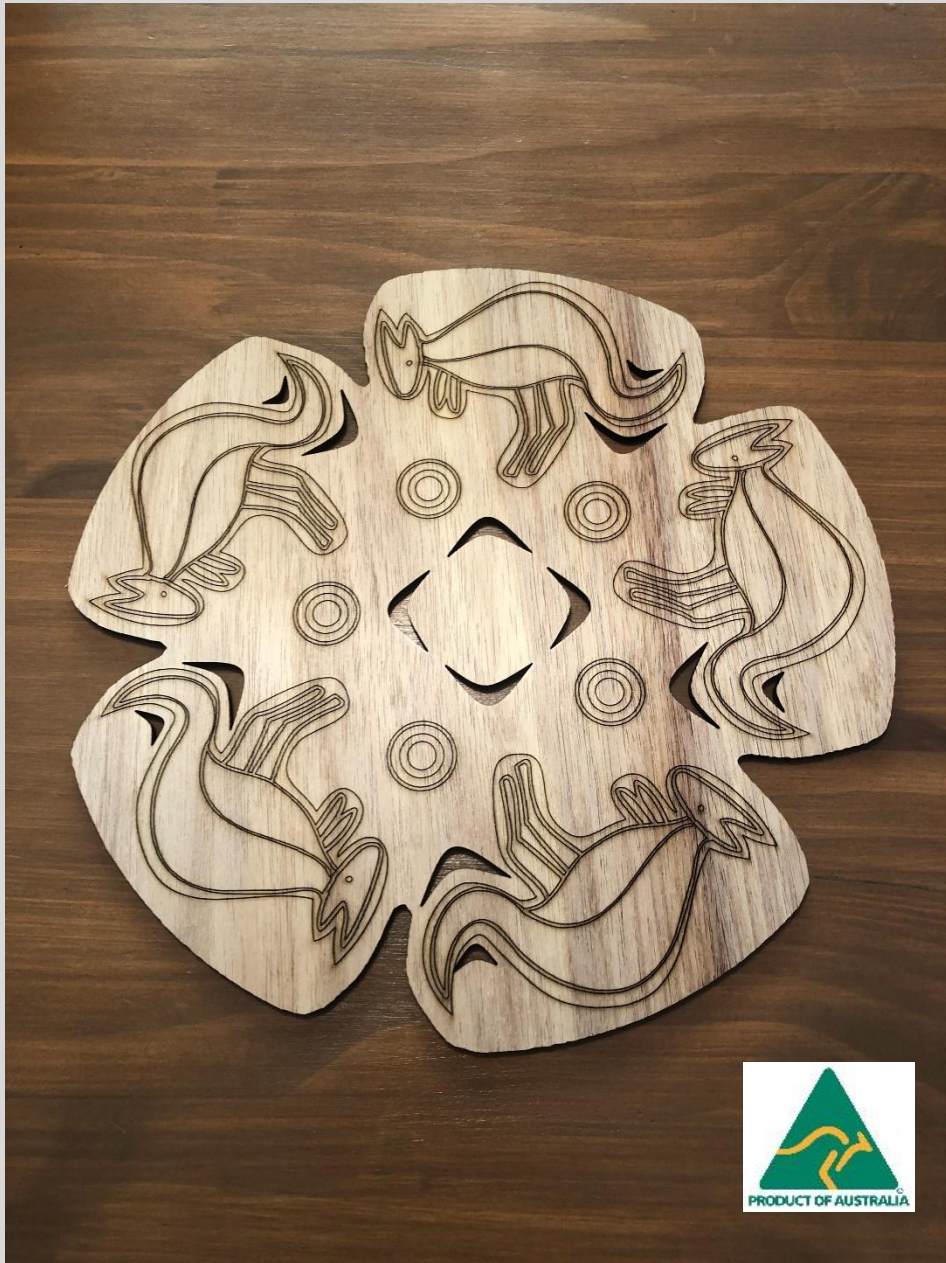

'Small' or 'Large'

Leaves Trivet

Kangaroo Trivet.

CATALOGUE 2026

Bluegum Sprig Trivet

Tree of Life.

Also quite popular as a decorative piece or as a trivet, the Tree of Life – in reverse engraving – is quite striking. It is also a piece that requires a lot of engraving work and takes correspondingly longer to make than many items.

The tree of life comes in two sizes: 165mm diameter and 255mm diameter.

Christmas Baubles

Christmas baubles are extremely popular at Christmas time. They are sold 4 to a box and, as the image shows, are customisable with an image and legend of your choice.

The baubles are made by engraving the image on Tassie Blackwood and then gluing the top "Merry Christmas" message (separately laser cut) to the image layer. Its painstaking and time consuming work , but it's worth it.

Please, order early November to ensure you get your stock of these little beauties in time for the Christmas rush.
